VILLA DRIVING TOWARD NORTH; ALL WIRES CUT

Bandit Chief Segregates Juarez and Villa Ahumada Garrison Flees.

By H. H. STANSBURY.
(International News Service.)
El Paso, July 21.—The Mexican town of Juarez is without communication with the interior. All telegraph lines connecting this section of the border with Chihuahua City have been cut.

Villista bandits are reported to have worked north along the Mexican Central Railroad to within striking distance of Villa Ahumada. The latter place has been abandoned by the Carranzista garrison.

An agent of the American military authorities reports the Chihuahua City locality infested with Villistas. The band is believed to be the same that wrecked and looted a Carranza supply train four days ago.

Villa is still in the vicinity of Torreon, if not actually occupying the town. The small bands sent north to do recruit duty and to effect surrender of as many Carranza garrisons as possible.

A message received from Parral stated that Gen. Luis Herera had confiscated fifteen carloads of corn sent to that point to be distributed to the starving population. The food has since been sold by the officers.

Minister Obregon has ordered the powerful wireless plant in Juarez dismantled immediately. The huge tower is now being torn down and all parts are to be shipped to the interior. The military authorities at El Paso attach considerable significance to the order, believing it to be an indication that the de facto government authorities have no chance in the successful outcome of peaceful negotiations.

MYSTERY IN "SUB'S" DELAY

Deutschland, Apparently, Abandons Departure Plans. Crew Given Shore Liberty.

(By the International News Service.)
Baltimore, July 21.—It was plain today that some mysterious setback—some difficulty known only to Capt. Paul Koenig and to the agents of the Deutschland—has been encountered to prevent the sailing of the merchant submarine, which undoubtedly was scheduled for several days ago.

There is nothing wrong with the boat or its mechanism, or the cargo, and shore leave to the sailors, revoked several nights ago, has been granted again. Even social activities have been resumed. Palpatingly, the Deutschland is comfortable in her berth and may remain there indefinitely.

There was less activity and more precautions taken in the vicinity of the Deutschland today. Off to the west of the Deutschland lies the Italian liner Abailon from Naples. Search her hull, her deck, her life-boats and life belts and you will not find her name. She has been repainted, and all traces of her name have been eliminated. Not even does she fly the Italian flag.

Throughout the night the Thomas P. Timmins plays her searchlight over the big black hull of the Italian trader. To the east of the Deutschland there is a Russian tramp steamer, the Nalome. Should the Deutschland go out, she would pass almost under the bow of the tramp.

WIDOWS HOLD PICNIC.

Fifty of Them Have Rejected Proposals from All Quarters.

Berwick, Pa., July 21.—The eleventh annual picnic of the Berwick Widows' Association was held at Fairchills Park, with fifty widows in attendance.

Notwithstanding the fact that the organization's members have received matrimonial offers from all corners of the country, few have remarried.

DEATH WAVE IN DETROIT.

Eleven Die Violently in Eighteen Hours.

Detroit, Mich., July 21.—Eleven persons died violently in Detroit between 2 o'clock yesterday morning and 8 o'clock last night.

Seven of the victims were overcome by the heat which has prevailed for ten days; one committed suicide; one was killed by a street car, and one by a fall from a third-story window.

STRIKERS TIE UP FERRY.

Thousands of New York Commuters Wait for Boats.

New York, July 21.—Firemen on the ferryboats operated by the Central Railroad of New Jersey went on strike today for more pay and shorter hours.

After a couple of hours delay strike-breakers were put to work and the ferries resumed operation, but not before thousands of commuters were delayed.

Spain Ends Martial Law.

London, July 21.—A dispatch from Madrid to the Exchange Telegraph Company says that martial law has been abrogated in Spain except in the coal districts of Asturias.

CAMP GETS ITS FIRST SMELL OF REAL POWDER

"Halt!"
He did not stop.
"Halt!"
Still he kept running.
"Halt!"

He was just beginning to get up speed when a rifle report rang out, and the first shot at Camp Ordway had been fired.

After the escape of a prisoner on Thursday, Gen. Harvey ordered all sentries to be armed. So when a prisoner who was being escorted from the guard tent to the mess hall last night at just about dusk decided that he would leave the camp the sentry had little difficulty in convincing him that it was safer to remain.

One shot was fired, and, while it did not "wing" the prisoner, it was close enough to cause him to alter his decision.

GIRL'S CIRCUS DREAM SHATTERED BY "COPS"

Special to The Washington Herald.
Philadelphia, July 21.—Mildred Lipsitz, 14 years old, whose father owns a furniture store in Northampton, Pa., had an ambition to be a bareback rider in a circus.

Last week Mildred's opportunity came when Lee's circus came to Northampton. There was a man in the circus. His name was Charles Clifton, 24 years old.

The Philadelphia police say that Clifton induced Mildred to leave her home and come here to meet him. They were going to rejoin the circus with Mildred as a bareback rider. But Mildred was taken from a train last night at Twenty-fourth and Chestnut streets, by Detective Gomborow, and this morning her father, who had followed her, took her back to Northampton.

HUGHES IS SATISFIED WITH G. O. P. CAMPAIGN

(By the International News Service.)
Bridgman, N. J., July 21.—Whatever the general view as to the progress of the Republican campaign may be, Charles E. Hughes is satisfied with the headway made.

In a private talk with friends tonight, the Republican nominee declared that in some respects he feared that the party might be going ahead too fast, in opening their campaign so early. It is the feeling among the leaders, however, that the Western campaign will develop such weakness in the Republican line as may exist.

MUTE WAKES NEIGHBORS; SILENT BEFORE JUDGE

Special to The Washington Herald.

Baltimore, July 21.—Creating sufficient disturbance to awaken nearly the entire neighborhood and cause his arrest last night, Edmund Bayer, 18 years old, 511 North Brice street, was unable to make a sound when he appeared before Justice Tormalin this morning in the South-western police station. The reason was simple—Bayer is a deaf mute.

Justice Tormalin showed his surprise when, after learning that Bayer could neither talk nor hear, he read a charge of disorderly conduct and making loud noises against him. In fact, Bayer was the only one in the court who was not surprised.

FINDS ARCTIC TOO HOT; BACK IN WASHINGTON

The weather got so hot in the Arctic circle that Assistant Attorney General Warren, who went for a six-weeks' visit there, had to come back to Washington. He arrived yesterday announcing that the hottest day he spent on his trip was in the Arctic circle, where the temperature was above 90 degrees.

Mr. Warren went to Alaska to review methods of conducting legal proceedings.

ASK FOR \$400,000 FOR FLOOD VICTIMS

Relief appropriations aggregating \$400,000 for the benefit of flood sufferers in the South, are called for by two bills introduced in the House yesterday.

One measure introduced by Representative Lee, of Georgia, provides for \$100,000 for sufferers in the Coosa Valley, of Georgia, while another bill offered by Representative Burnett, of Alabama, would make \$300,000 available for those in distress in the devastated sections of Alabama.

MARSHALL WINS STAY; REMAINS IN NEW YORK

(By the International News Service.)
New York, July 21.—H. Snowden Marshall today won a stay in the Federal Court which prevents his removal to Washington on charges of contempt brought by the House of Representatives.

This stay was granted by Judge Learned Hand in order that Mr. Marshall may appeal from the decision dismissing his writ of habeas corpus and remanding to the custody of Robert B. Gordon, sergeant-at-arms for the House.

The stay holds good until December 1, provided that by that time Mr. Marshall has made appeal. Meantime he is free on his own recognizance.

Chicago Chance King Bets Even on Wilson

Special to The Washington Herald.

Chicago, July 21.—Jimmy O'Leary, Chicago's king of chance, has changed his odds on the coming Presidential election "because of the war," as he puts it, to "even money on Wilson and Hughes; take your choice."

Up to the latest Mexican crisis Hughes ruled a 5 to 6 favorite, while Wilson was quoted 4 to 5.

O'Leary claims Wilson's strength has increased recently.

MAIL HOLD-UP STIRS HOLLAND

Dutch Government Believes With America that British Censorship Is Unjust.

The government of Holland has approached this government with a suggestion for co-operative action against the mutually objectionable features of the British blockade. This action, to be backed by reprisals against British trade if necessary, is now understood to have been the subject of the conference yesterday between Acting Secretary of State Polk and Chevalier van Rappard, the Dutch Minister.

The matter was discussed fully at the Cabinet meeting yesterday. Mr. Polk informed the President of the Dutch Minister's informal suggestion.

President Wilson had in view the sending of another vigorous note to Great Britain in connection with the blockade case but the government of Holland is understood to consider the blockade question from a broader viewpoint and to seek a comprehensive remedy instead of continuing the futile process of protesting item by item as each objectionable feature presents itself.

After his conference with Chevalier van Rappard, Mr. Polk sent a cable to Ambassador Page at London and also to Ambassador Sharp at Paris directing them to ascertain when the reply to the last American note on the mail seizures case would be forthcoming.

DEATH TRAILS WAVE OF HEAT

Cleveland's Toll Greatest, Where Seven Die—Four Expire in Buffalo.

Special to The Washington Herald.
New York, July 21.—A heat wave which swept the country from the Atlantic Coast to the Great Lakes today left a trail of death in its wake.

The heat toll was greatest at Cleveland where seven persons, five of them babies, expired. The official temperature was given at 85, although street thermometers registered between 94 and 98.

Four dead and seven prostrations was Buffalo's toll to the heat wave. One man was overcome while driving an ice wagon, and toppled to the street. Both of his arms were broken.

Baltimore reported one death with many prostrations as the result of extreme temperatures. George C. Wise, an aged mail carrier, dropped on the street while serving his route and later died in the hospital. The official temperature there was reported at 94 degrees.

PEACE MEN TO REPORT.

Ford's European Commissioners Reach Detroit.

Detroit, Mich., July 21.—Charles F. Aker and Prof. Emily Balch were in Detroit today to make a report to Henry Ford on their work as members of his European peace commission.

Mr. Ford will meet the delegates Tuesday. Dr. Aker seemed pleased with his reception at the hands of the Germans, but said England would not let him land.

ENGLISH COAST SHELLED.

Berlin Reports "Sub" Attack at Seaham.

Berlin (via wireless), July 21.—The German admiralty reported today that a German submarine on July 11 shelled the iron works at Seaham, on the English east coast.

From July 19 to July 14 German submarines have destroyed near the English east coast nine steam trawlers, seven of them British.

Plague at Bristol, Pa.

Philadelphia, July 21.—George T. Bunting, 7 years old, son of Mr. and Mrs. George E. Bunting, of Bristol, Pa., died at his home there late last night of infantile paralysis.

German Flyer Bombs Belfast.

Paris, July 21.—A German aeroplane this forenoon dropped several bombs on Belfast. The damage was insignificant.

Prussians Lose 2,801,521.

London, July 21.—The Prussian casualties up to the present are 2,801,521, according to the Daily Telegraph.

Quickest Service to Baltimore.

Baltimore and Ohio, "Every Hour on the Hour," \$1.50 Saturdays and Sundays. Other days \$1.75 round trip.—Adv.

BIGGEST NAVY BILL IN HISTORY PASSES SENATE

\$315,826,843 Provided for Fleet After Hard Fight with Pacifists.

The naval appropriation bill carrying appropriations aggregating \$315,826,843, the largest in the history of the country, providing ten battleships and ten battle cruisers, passed the Senate yesterday afternoon by a vote of 71 to 8.

The closing hours of the consideration of the bill were marked by steady resistance from the "small navy" men. Amendment after amendment was proposed to reduce the number of capital ships and some of them received large votes, but all of them failed.

Senator Cummins withdrew from the fight when the Senate rejected a slight modification of the House program which would have given two battleships and four battle cruisers. He remarked that it was evident there was no limit to the policy of the Senate either as to the size of the navy or the amount of the appropriation.

The next vote came on Senator Shafroth's proposal to restore the House provision to spread out the building plan over five years instead of putting it in three as the Senate has provided. And with the rejection of this amendment the Senate passed the bill.

The bill will now go to conference and it is expected that a long struggle will ensue between House and Senate conferees.

BRIDE SLIDES WITH TRUNKS

But Dad Overhauls Newly Weds in Taxi and Son Hastily Leaves Her.

Special to The Washington Herald.

New York, July 21.—Stewart Morrison, wealthy and prominent architect of Albany, was on the Hudson Navigation Company's pier this morning when the Berkshire of that line came down the river. His son, Everett, 20 years old, was aboard the Berkshire with a newly acquired bride in the person of Miss Barbara Stevenson of Yonkers, 19 and charming.

The elder Morrison had heard of the contemplated marriage while at his country place near Albany yesterday and had hurried into town to head it off. He was too late. He did the next best thing by taking a train and waiting for them on the pier.

Suspecting that his father would pursue just those tactics, young Morrison took his bride by the arm and they came sliding down the baggage chute, far aft of where their pursuer was keeping an eye on the gangplank.

Hopping into a convenient taxicab they started up-town just as the father became aware of the ruse and started after them. He also took a taxi and a brisk chase scene was enacted. It was brought to a sudden stop by the traffic at West street and Desbrosses street. Here the pursuing taxi drew alongside the one bearing the bride and bridegroom, and after taking one swift look at his father's face young Morrison leaped to the street without his hat and started down-town, leaving his bride to her fate.

Father then replaced son at the side of the bride and drove away despite the young woman's loudly voiced protests. When last seen the bridegroom was still traveling south.

COSTUMES MAY SHRINK BUT BATHERS—NEVER!

Special to The Washington Herald.

Atlantic City, N. J., July 21.—It is the verdict of old-timers at Atlantic City that bathing costumes for women are this year cut lower and higher than at any time since the Indians took their dips on Absecon Beach.

The shortening of the street dress seems to have pushed the hem of the bathing skirt upward to an equivalent distance. A few knee-length skirts may still be seen, but the majority of them barely cover the hips.

Notwithstanding the high cost of living most of the fair bathers who wear stockings affect silk hose of fine quality. A goodly number of the women this summer are wearing socks.

"MEANEST THIEF" HAD FRESH-AIR DONATIONS

Special to The Washington Herald.

Baltimore, July 21.—Called by the police "the meanest robber in Baltimore," David Rosenfeld, 21 years old, 4300 Park Heights avenue, was arrested this morning by Detectives King and Freeman, of the detective bureau, for the larceny of ten cents containing funds for the Fresh-Air Society and three jars with collections for the St. Vincent de Paul Society.

He would enter a store with an empty jar, represent himself as the agent of the societies and then place the filled jars in a valise, the detectives say.

Heiress Freed From Rule of "Fussy Men"

Special to The Washington Herald.

Hartford, Conn., July 21.—An impersonal, coldly legal guardian, the Hartford Trust Company, will hereafter regulate the affairs of Marion Pomeroy Smith so far as she needs chaperonage.

Miss Smith, pretty, very much alive, and 21, is jubilant over her release from what she calls the rule "of fussy old men with fussy ambitions."

Charles C. Paine is conservator of the Massachusetts property of the young heiress. The suit was over his application to be appointed a conservator also over her Connecticut property. Mr. Paine contended Miss Smith was not capable of managing her own affairs because she was infatuated with married men of Cape Cod.

DEATH-DRUG HUNT BEGINS

Police Search Pharmacies for Trace of Mercury that Killed Dr. Adams.

(By the International News Service.)

Boston, July 21.—Police officials of Boston and Brookline today made a search of drug stores to trace the mercury which killed Dr. Celia P. Adams. If they locate the store where the poison was purchased, they hope to be able to decide whether Miss Adams took the poison with suicidal intent.

According to the latest statement of Medical Examiner McGrath, chemical analysis of the contents of the stomach of the young woman proves that mercury was the poison which killed her.

The police today also examined a package of letters taken from the Hotel Westminster office of Dr. Wilfred E. Harris, who was shot Tuesday by Dr. Elbridge D. Atwood, in the hope of learning the exact relations between the dead woman and Dr. Harris.

Dr. Harris was reported improving at the City Hospital today, but not yet out of danger. On top of the prospect of Dr. Harris' recovery comes the possibility that "emotional insanity" will be the basis of Atwood's defense.

AUSTRO LINE IS IMPERILED

Russians Drive Smashing Blows Against Teutons in Riga Sector.

(By the International News Service.)

London, July 21.—Blows imperiling the Austro-German lines in the Riga sector, before Kovell and in front of Lemberg, were struck yesterday by the Russians.

After considerable artillery preparations the Russians launched heavy infantry attacks near the mouth of the Lipa River, which cleared the Teutons from before Werbern and drove them back to new positions at Berestek.

Vienna admits the loss of salients on the Styria, beyond its confluence with the Lipa, but asserts the sudden Russian advance has been arrested. In this battle Petrograd claims the capture of fifty officers and 1,600 men.

Russian forces under Gen. Kuropatkin are attacking the troops of Field Marshal von Hindenburg along the entire front in the Riga sector. For several days the czar's heavy artillery has been racking the Teutons' positions with telling effect. At several points the German front has been broken, according to unofficial dispatches from Petrograd.

AMERICANS HONORED.

Two Decorated With French Croix de Guerre.

Paris, July 21.—Two Americans, members of the American sanitary unit, were decorated today with the Croix de Guerre. They are Joseph Wendell, nephew of Prof. Wendell, of Harvard and Henry Hollingshead, of New Jersey. Both were recently wounded at the Verdun sector.

NEW BRITISH CREDIT.

Parliament to Be Asked for \$2,250,000,000 More.

London, July 21.—A new vote of credit of \$2,250,000,000 will be moved in Parliament next Monday by Premier Asquith, it was announced today.

This will bring the total credit to \$12,660,000,000.

Two Allied "Subs" Sunk.

Vienna (via Berlin by wireless), July 21.—Austro-Hungarian torpedo boats destroyed on the night of July 15, an Italian and another submarine in the Adriatic, the admiralty announced today.

Girls at Rochester Strike.

Rochester, N. Y., July 21.—Nearly 100 employees, sixty of them girls, of the Yawman and Erbe Manufacturing Company, are on strike here today. They demand a forty-nine and one-half hour working week, with pay for fifty-four hours.

SMOKING MAY CAUSE PLAGUE, SAYS PEASE

Special to The Washington Herald.

New York, July 21.—Dr. Charles G. Pease, president of the Nonsmokers' Protective League of America, and widely known as an eschewer of tobacco, has noted a strange coincidence. He has become convinced that tobacco smoking is prevalent and so is infantile paralysis.

Without seeking the aid of Annette Hazleton's ready pen, Dr. Pease wrote to the Rockefeller Institute for Medical Research, calling his observations to its attention.

"In my opinion," wrote Dr. Pease, "it is important to determine, in view of the prevalence of tobacco smoking, whether tobacco-poisoned progenitors or tobacco smoke inhaled in the atmosphere by the children afflicted play any part in the production of a physical condition favorable to the inception of the disease."

CAPITAL HAS RECORD TEMPERATURE OF U. S.

According to the report of the Weather Bureau the mercury reached 93 in Washington a little after 4 o'clock yesterday, the record for the country, and only two others, Salt Lake City, and St. Louis, passed the 90 mark. The thermometers in Washington that were on street level between 4 and 6 o'clock did not drop below 90. At Pennsylvania avenue and Fourteenth street, the mercury started upward at 6 o'clock yesterday morning, and kept rising until 4 in the afternoon, when it was almost to the century mark. It remained around 98 until about 6 and then dropped slightly. There were no reported prostrations by heat.

COAL BIN IN CELLAR WAS HUBBY'S SHRINE

Special to The Washington Herald.

Philadelphia, July 21.—An uncontrollable passion for gazing at the picture of his first wife, which he kept hidden in the coal bin in the cellar, led to the arrest of Carlo Roselli, 35 years old, on a charge of bigamy.

The charge was brought by Mrs. Roselli No. 2, who married the defendant two years ago. She testified before Magistrate Harris that her husband frequently arose in the middle of the night to look at the picture.

Mrs. Roselli No. 2 declared that after their marriage her husband began receiving letters from Italy. An investigation, she declared, brought out the fact that Roselli had never been divorced.

GERMANY MUST REPAY BELGIUM, SAYS ASQUITH

(By the International News Service.)

London, July 21.—Great Britain will exact reparation for the spoliation of Belgium, Premier Asquith declared today. The premier was the chief speaker at the celebration of Belgian independence day.

He said the German government had issued a new decree increasing the stringency of the law against Belgian workmen who refused to work for Germany.

The object was to enable the Germans to requisition Belgian labor for military needs, but the spirit of the Belgians refused to permit them to become accomplices in the spoliation and oppression of their native land, he said.

CHILD MAY DIE AFTER PLAYING WITH MATCHES

As the result of playing with matches near a can of gasoline, Edward Taylor, 9, of 337 Douglas street northeast, is at death's door from serious burns on his head, hands and body.

The child was alone in the kitchen yesterday afternoon. It is said, and obtained a box of matches. In attempting to strike the head flew off into a can of gasoline. The screams of the child, when the explosion set fire to his clothes, brought his mother rushing to the scene. The burns were dressed by Dr. Rush W. Conklin.

ALLIES SEND THANKS TO U. S. RED CROSS

(By the International News Service.)

New York, July 21.—Messages of gratitude for the work of the American and Canadian Red Cross in Europe were brought here today on the Baltic by Capt. Noel G. L. Marshall, of Toronto, chairman of the Canadian Red Cross executive committee.

Capt. Marshall has been making a tour of inspection of Canadian Red Cross hospitals in France and England. He had audiences with King George and Queen Mary, and with President Poincare of France.

HUNGARIANS, IN PANIC, FLEE ONCOMING RUSS

(By the International News Service.)

Milan, July 21.—According to news received here from Hungary, a panic preceded the exodus of the population of Brody, where the Russians are expected. Eighteen thousand persons have left the town, only 100 families remaining.

Alarm has spread throughout Hungary, even political circles being deeply moved. Judge Peppenberger, of Radantz, describing the evacuation, estimated that 50,000 refugees from Bukovina have been jammed in the woods of the Carpathians.

DRIVE OF ALLIES FAILS ON SOMME, BERLIN CLAIMS

Further Advances Claimed by Haig, Despite German Counter-Attack Along River.

(By the International News Service.)

Berlin, July 21.—The main blow of the Franco-British allies on the Somme front has been struck and failed, according to an official statement issued at main headquarters today.

The statement describes the carefully prepared efforts of the allies and makes the definite statement that the drive has crumpled up.

The mighty offensive was launched with 300,000 men on a front of twenty-seven miles north and south of the Somme, yesterday morning. At only two points did the attacking troops make progress and there their greatest gain was less than half a mile. Their losses are described as very heavy.

Following the collapse of the allied smash on the Somme front the Germans during the night developed a counter offensive which is gathering force.

Despite this offensive Gen. Haig's forces have further increased their gains. London declares, carrying the greater part of the strongly fortified Fourceux Wood, north of the Bazentin-Longueval line. The Germans tonight are delivering violent attacks against the ground won in the forest.

The latest encounters have been almost entirely of a local nature. Gen. Haig said tonight. That the German losses in the last few days of fighting have been terrible is indicated by tonight's statement. Thirteen battalions of Germans attacked on a 200-yard front in the Delville Wood on Tuesday.

The Germans are now employing boys of from 17 to 20 years in their main operations, according to dispatches from Paris.

AMERICANS ON SUNKEN SHIPS

Yser, Torpedoed by Submarine, Carried Three Citizens of United States.

Special to The Washington Herald.
